# RESPONSIBILITY

At TEE JAYS, we understand the immense responsibility that comes with being a clothing company. It is our duty to the planet and future generations to contribute to positive change and advocate for a more sustainable approach to clothing production — clothes in premium quality that lasts. This includes re-thinking materials and how we use them.

Within our range, you'll discover products crafted from organic cotton and recycled polyester fabrics. Our Code of Conduct aligns with the UN Global Compact's 10 principles, which are grounded in internationally adopted declarations and conventions on human rights, labor rights, environmental protection, and anti-corruption. TEE JAYS doesn't own factories; instead, we collaborate with suppliers who comprehend the significance of adhering to the ethical guidelines outlined in our Code of Conduct throughout the supply chain.

In 2021, we achieved a significant milestone in our commitment to sustainable practices by introducing our first collection crafted from recycled post-consumer plastic. We also proudly became a member of The Better Cotton Initiative/BCI, and of course, every product is covered by STANDARD 100 OEKO-TEX®.

As part of our long-term sustainability strategy, we continuously seek less harmful and more sustainable alternatives to traditional cotton. Many of our styles, now feature organic cotton, and we are actively transitioning more styles to incorporate organic materials.

By choosing our products, you support a conscious effort to protect our planet and create lasting items. We take responsibility for today, tomorrow, and uphold our ongoing commitment to sustainability and quality in the future.

Clothes in premium quality that lasts.

# NEWS

Over the past two years, we've been working on refreshing our collection, and streamlining it by discontinuing slow-moving styles and colours. Our dedication to ensure a strong future, has led us to focus the new styles on high-quality commercial styles, designed for the promotional market. Inspired from the latest trends, our 2024 Collection offers a captivating range of A-selling series, and styles that cater to the strong casual, comfortable, and conservative preferences.

We are thrilled to introduce two brand new series to our collection: the Athletic Sweat and the Ribbed Interlock Sweat series. These additions are perfectly complement of our existing successful range of college sweats. The Ribbed Interlock Sweat is an unbrushed heavy luxury sweat, ideal for both business and leisurewear, while the Athletic series caters to the active and leisurewear segments with its modern tops and bottoms. But that is not all! We are also introducing a knitted casual stretch shirt and a half zip knit sweater, specifically tailored for the workwear and casual segments.

A man with dark hair and a light beard is looking down and to the right. He is wearing a black long-sleeved crew-neck shirt and blue denim jeans. His hands are in his pockets. The background is a plain, light-colored wall.

### DRESS FOR BUSINESS

The business collection features impeccably tailored garments designed to complement the urban lifestyle and current trends. ## THE LITE SERIES

Plastic is difficult to get rid of. It is mostly nonbiodegradable, and too much of it ends up in our oceans. By using materials made from recyclables we can contribute to the elimination of plastic waste while reducing energy use and the oil demand.

This is why we have created The Lite Series: our first ever collection using recycled fabrics, meaning fabrics made from recycled polyester. These styles are marked with our "recycled" logo.

# STORY OF

In 1976 Terry and Jim founded TEE JAYS Mfg. Co working out of Terry's garage with nothing but a bunch of sewing machines. After a few years, Jim decided to leave the company, and Terry continued carrying out his dream.

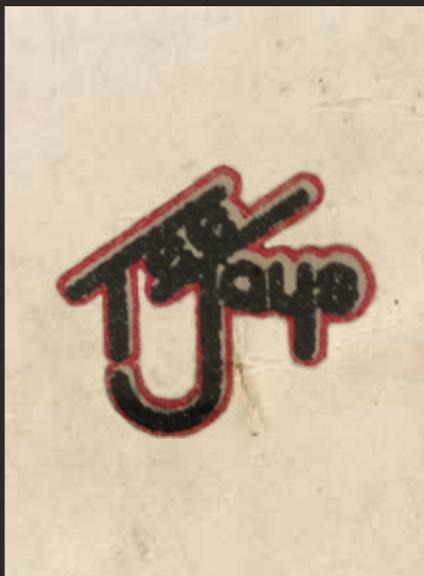

Living in the beautiful countryside of Florence Alabama, Terry and his family knew textile manufacturing and worked in the industry for their entire careers. Terry's grandmother worked her whole life for a single garment-manufacturing mill running a flat lock machine every day until her retirement. His father Paul started in the mills right out of high school.

The garage with the 25 sewing machines quickly became a full vertical production plant with knitting, dyeing, cutting, sewing, and screen-printing. The Wylie family was determined to bring the complete T-shirt with decoration into the premium market. Terry saw the potential in making printed and custom-made garments instead of selling blank printables as a key strategy, which turned out to be a very clever and lucrative move. In the period from 1976 to 2002, Terry and his family build a very well respected company in Florence Alabama. At their peak, TEE JAYS employed 4000 people in Florence, had 19 production plants and shipping departments and was the third largest employer in the Shoals area and the fifth largest T-shirt manufacturer in the USA.

## ACROSS THE ATLANTIC

On a sunny day in 1979, my father George visited a tradeshow in Anaheim, California. At that time, he and my mother Lone owned the wholesale business LG Sportswear in Denmark. As my dad walked past the TEE JAYS stand, a man remarked, "I love the smell of your pipe". The man was Terry, and his comment became the beginning of a lifelong friendship. My dad later visited Terry in Florence, Alabama to discuss the possibilities for representing TEE JAYS in Europe. Four weeks later the first shipment of Sof Tee heavyweight T-shirts was sent from Alabama to LG Sportswear. At that time, my mom and dad ran LG Sportswear from the basement in our home, and my older brother Anders and I earned our first pocket money packing the orders.

My dad did a great job for TEE JAYS. He made a success of selling the original US SOF TEE T-shirt in high-end retail stores in Denmark and wanted to do the same in other European countries. In 1980 he was hired as the European Sales Director for TEE JAYS – a job that he was dedicated to for more than 20 years. The business grew stronger, and so did the friendship between Terry and my father. In 1986 my dad had a Danish artist draw a new logo for TEE JAYS, and he gave it as a gift to Terry. Terry loved it so much that he changed the logo on all T-shirts, boxes, trucks, etc.

## **THE SECOND GENERATION**

As a kid, I was fascinated by my dad's work and the life he led. I always knew that I wanted to be exactly like him. One day my dad asked if I wanted to go to the US and work for TEE JAYS Mfg. Co. to learn the production side of the business. I didn't hesitate for a second, and in August 1990 I went to Alabama. I spent 18 months working in all departments and learning about knitting, dyeing, cutting, sewing, and screen-printing. When I returned to Denmark I started working for LG Sportswear, primarily focusing on sales and purchasing. The timing was perfect. Terry and George agreed that we could outsource our own Basic 150 GSM T-shirt to Bangladesh with a TEE JAYS neck label. The first offshore TEE JAYS tee was produced in 1995.

## **A NEW CHAPTER**

A lot has happened since Terry opened a small production facility in his garage in Florence, Alabama. To say the least. For 25 years my family had strong ties to TEE JAYS, Terry and his family; as customers with LG Sportswear ApS, my father as an employee, and most importantly as very close friends. Terry's retirement came at a perfect time, and we were ready to carry on his life's work.

I clearly remember when my dad George said to me in the early spring of 2003: "What's the plan now? It's your time son". I was 31 years old, and the answer was clear. I saw a big gap in the European promotional market, and I wanted to fill it by creating a full-line brand of quality products. After watching and looking up to Terry and my dad for so many years, I couldn't wait to carry on the torch and give the TEE JAYS Brand a new life in Europe, focusing on lifestyle products and high quality.

The market responded positively to the TEE JAYS quality level and new image. With the support of our Scandinavian customers and European distributors, TEE JAYS became known as the premium leisurewear brand in Europe. In 2015 we got the

rights for TEE JAYS in the US and purchased the teejays.com domain. We have spent the past decades defining and strengthening the TEE JAYS brand and our position in the European market. We are currently in the process of making new office and warehouse additions in order to be able to service the huge demand on the European market. And to secure space for our ambitious five-year growth plan. Our primary goal is to stay focused and do what we do best – that is to provide excellent service and to produce high-quality essentials that last.

It might be a long way from Denmark to Alabama. But we've taken the most important things with us, which are the brand's vision and the values that TEE JAYS was founded on. It is the love of excellent, durable materials. The no-compromise approach to construction and fit. And the simple yet very well-thought-out design that makes the clothes look and feel amazing.

This applies to all our designs, from T-shirts and polos to sweats and jackets. Our designs are simple, and even though we do take inspiration from trends, our top priority will always be to create timeless classics that last for years and years. Not only because it's the most comfortable for the people wearing it, but also because durable clothing is better for our planet and for the industry. This aligns with our continued focus on sustainability. Many of our styles are available in certified organic cotton. And some even in materials made from recycled plastic waste.

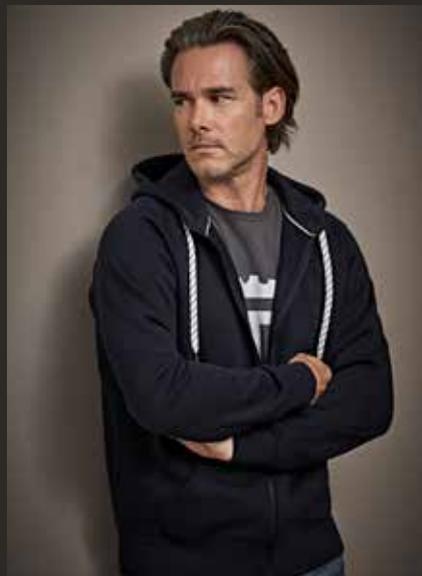

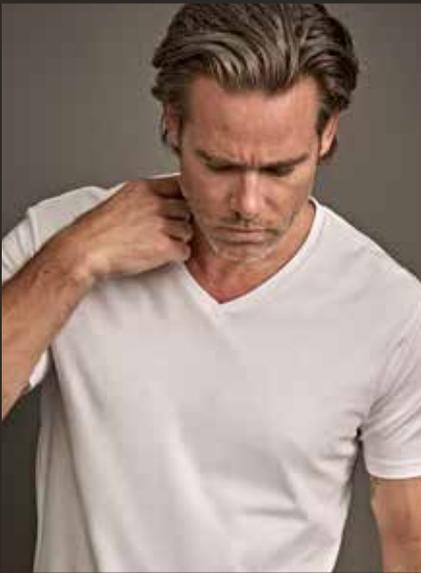

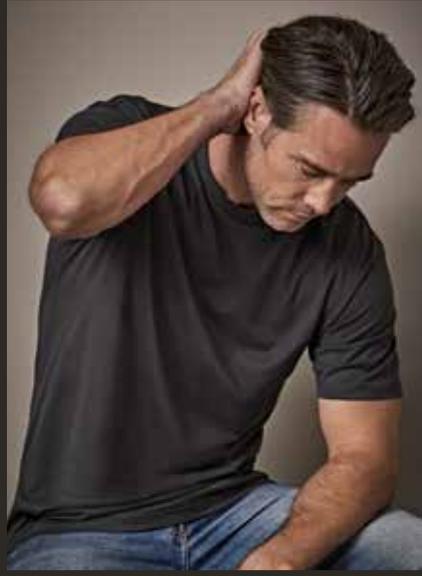

I'm very proud of where we are today. That we've been able to carry on Terry's life's work. And stay true to the founding values of TEE JAYS, while still moving forward and adapting to the world that we're living in today.

I can't wait to see what the future holds.

Peter Høfler – CEO/owner

# BEHIND THE SCENES

At TEE JAYS our passion is to make great garments. But we also love to challenge ourselves to make the best catalogue ever – each year. This time, our lens focused on the enchanting capital city of Denmark. While our previous adventures led us to cities like Amsterdam, Paris, and Stockholm, this time we stayed close to home. We've learned to appreciate the beauty right in front of us, falling in love with our capital city all over again. The laid-back, Scandi-cool vibe of Copenhagen perfectly mirrors the TEE JAYS spirit and our premium-quality essentials.

## **A CATALOGUE DOESN'T JUST HAPPEN...**

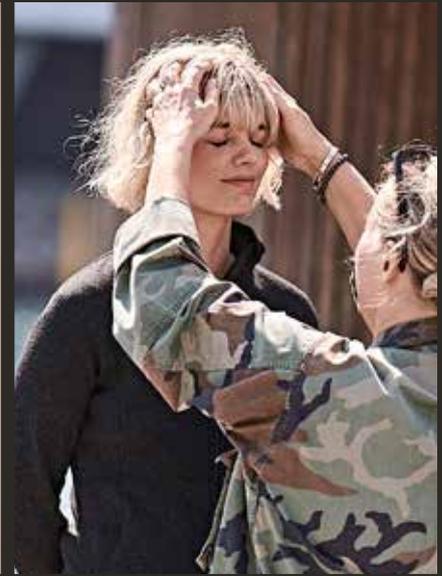

Weeks of meticulous preparations, several intense and vibrant days of photoshoots, approximately 30,000 clicks on the camera's trigger, and, thankfully, abundant laughter and wonderful moments – this is what lies behind our 2024 catalogue. It's a collective effort of truly amazing individuals who approach the task with dedication and passion year after year. To us, this isn't just work; it's a lot of fun...

A thousand thanks to our beautiful and hardworking models: Pedro, Daan, Morgan and Patrick – great job, guys!

## **LAST BUT NOT LEAST!!**
